

14 NOVEMBER 2022
INAUGURAL SESSION: DETAILED SCHEDULE

IIM - 76th Annual Technical Meeting (OZONE HALL)	
Time	Event
09:30 - 10:55	Inaugural Function Chief Guest: Shri Faggan Singh Kulaste , Hon'ble Minister of State, Ministry of Steel, Government of India Guest of Honour: Professor Basuthkar Jagadeeshwar Rao , Vice-Chancellor, University of Hyderabad
10:55 - 11:15	Inauguration of Technical Exhibition, Photo Session and High Tea
11:15 - 12:15	IIM Awards Ceremony
IIM Award/ Memorial Lectures	
12:15 - 12:45	Prof. N. P. Gandhi Memorial Lecture Rajiv Shekhar Director, Indian Institute of Technology (ISM) Dhanbad Topic: Hydrometallurgy and Electrochemistry: Keys to a Sustainable, Secure Indian Economy
12:45 - 13:15	Dr. Daya Swaroop Memorial Lecture K Baba Pai Director, Institute of Technology & Management Universe, Dean School of Technology & Engineering, Vadodara Topic: Failure Investigation & Analysis – A Powerful Metallurgical Tool
13:15 - 13:45	IIM GD Birla Gold Medal Lecture S.V.S. Narayana Murty General Manager, Material Development and Production Group, Liquid Propulsion Systems Centre, Thiruvananthapuram Topic: Research and Development in Materials for Indian Space Program
13:45 - 14:30	Lunch

14 NOVEMBER 2022

PLENARY LECTURES AND PANEL DISCUSSIONS

PLENARY LECTURES (OZONE HALL)											
Time	Speaker										
14:30 – 15:00	Debashish Bhattacharjee Vice President (Technology and New Materials Business), Tata Steel Opportunities in New Materials in India										
15:00 - 15:30	B S Murty Director, Indian Institute of Technology, Hyderabad High Entropy Alloys: A Physical Metallurgist's Delight										
Tea Break											
PANEL DISCUSSION (OZONE HALL)											
15:45 - 16:30	Panel Discussion I: Topic: Role of Innovation and R&D in Indian Industries: Roadmap to AatmaNirbhar Bharat and Beyond, to Global Leader										
16:30 - 17:15	Panel Discussion II: Topic: Strategic Materials Security: Technological & Geopolitical Perspective										
INDUSTRY SESSION											
17:15 - 18:15	Advanced Techniques for Materials Processing and Characterization										
	<table border="1"> <thead> <tr> <th>Session I: New Characterization Tools OZONE HALL</th> <th>Session II: Novel Processing Methods OXYGEN HALL</th> </tr> </thead> <tbody> <tr> <td>Alex Bright ThermoFisher Scientific Spectra 300: Optimized microscope design for atomic resolution imaging & analysis</td> <td>Qiang Wu ALD Vacuum Technology GmbH Advanced Gas Atomization Systems - VIGA and EIGA for High-Quality Metal Powders</td> </tr> <tr> <td>Yimeng Chen CAMECA Instruments Inc. Atom probe applications for materials design and additive manufacturing</td> <td>P Babu Mishra Dhatu Nigam Limited</td> </tr> <tr> <td>Nagaarjun Sridhar ZEISS India Unlocking new opportunities in engineering materials research with ZEISS 3D-Xray Microscopy Solutions</td> <td>P R Agarwal PTC Industries</td> </tr> <tr> <td></td> <td>M. Thejo Vardhan Sunflag Iron & Steel Co Ltd</td> </tr> </tbody> </table>	Session I: New Characterization Tools OZONE HALL	Session II: Novel Processing Methods OXYGEN HALL	Alex Bright ThermoFisher Scientific Spectra 300: Optimized microscope design for atomic resolution imaging & analysis	Qiang Wu ALD Vacuum Technology GmbH Advanced Gas Atomization Systems - VIGA and EIGA for High-Quality Metal Powders	Yimeng Chen CAMECA Instruments Inc.
